

# MARTY ELA CODING CARD INSTRUCTIONS

## Objective:

To engage students in a creative writing activity while practicing code to enhance the story telling.

## Materials Needed:

- Coding card activities (digital or printed format)
- Activity templates (optional; available for printing)

1

## Introduce the Activity:

- The students will be participating in a creative writing activity with Marty where they will be tasked to fill in blank spaces, within a narrative storyline, with different types of words (nouns, verbs, adjectives, etc.). The goal of this activity is for each learner to create a unique story whilst coding Marty to act out scenes.

2

## Distribute Materials:

- Provide each student with the coding card activities, either digitally or printed.
- If desired, provide worksheet templates for students to fill out. These templates can be found [\[here\]](#)

3

## Free play/exploration

4

## Share:

- Once students have completed their stories, allow them to share with the class.
